7.			22.		
8.			23.		
9.			24.		
10.			25.		
11.			26.		
12.			27.		
13.			28.		
14.			29.		
15.			30.		

Additional information.

SafeNet MobilePASS enables Users to log in to CitiDirect, CitiDirect Mobile or CitiDirect Tablet by laveraging their smartphones to generate dynamic passcodes.

It can also be used to generate additional one-time passcodes to authorize transaction for the Clients with this funcionality.

MobilePass facilitates the login process at the same time increasing its security. User can use SafeWord card (hardware token) and MobilePASS at the same time and use them interchangeably - you dont have to resing from Hardware Token to start using MobilePASS. During the initial setup of the application, an internet connection is required to download the app and to perform first time activation. Once the activation is complete however, MobilePASS no longer requires an internet connection to generate dynamic passwords for CitiDirect login. Information about activation steps you can find in MobilePASS - Reference Guide.
