2. ASSESSMENT OF THE FINANCIAL RESULTS AND GENERAL CONDITION OF THE COMPANY

In 2016, Poland's economy continued to grow, however at a slower pace of 2.8%, as compared to 3.9% in 2015. The key growth driver was domestic demand, and especially private consumption, which rose from 3.2% year-over-year to 3.6% in 2016. That consumption growth was mainly fuelled by the labor market, which continued to improve with the unemployment rate falling to a record low level in 2016. At the same time, last year saw a significant decline in investments, by 5.5% year-over-year versus an increase by 6.1% in 2015, mainly because of lower inflows of EU funds.

In 2016, the net profit of the banking sector rose by 24%, to PLN 13.9 billion, as compared to PLN 11.2 billion in 2015. That growth was primarily caused by one-off factors, such as an increase in revenues resulting from the settlement of the acquisition of Visa Europe Ltd. by Visa Inc. in 2016. At the same time, the profitability of the banking sector in 2016 was adversely affected by the bank levy on certain financial institutions, new regulatory requirements for group insurance products and high volatility in international financial markets.

In this demanding market environment, the Bank generated net profit reaching PLN 604.2 million. At the same time, return, liquidity and equity ratios of the Bank reached much higher levels than the banking sector average. The stable situation of the Bank enabled it to actively support development plans of its clients and to pursue its policy of shareholder value maximization.

The key factors that shaped the financial result in 2016 include higher revenues and continued cost discipline. The costs of risk were up, back to normal level, and the Bank paid the bank levy.

In 2016, the operating revenues of the Bank amounted to PLN 2.06 billion and were higher by PLN 45 million, or 2.2%, than in 2015, first of all because of the revenue from settlement of the takeover of Visa Europe Ltd. by Visa Inc. and higher net interest income, achieved despite all time low interest rates. This growth was partially offset by lower net fee and commission income, following regulatory changes applicable to group insurance, and a lower result on treasury operations, caused by market headwinds.

In 2016, the Bank continued its cost discipline policy. As compared to 2015, costs were down by PLN 73.6 million, or 5.9%. The key drivers were a decline in general and administrative expenses and lower staff-related costs in connection with the continued transformation of the distribution system towards the *Smart Banking Ecosystem*.

In 2016, the costs of risk were back to normal levels. The result on impairment write-downs for financial assets was PLN 48.8 million. On the other hand, the Non-Performing Loan (NPL) ratio was reduced to a record-low level of 2.9% as at the end of 2016.

For the Bank, it was another year of sustainable growth of lending. In the Institutional Clients Group (ICG), the growth rate reached 9%, i.e. significantly above the GDP growth rate in 2016, and in the Global Consumer Banking (GCG) business, the volumes increased by 4%. Simultaneously, in 2016 the Bank had an increase in funds deposited in current accounts, by 7% and 17% in ICG and GCG, respectively, from 2015.

At the end of 2016, the equity of the Bank recorded a small decrease as compared to the prior year period, mainly owing to a negative valuation of the debt securities portfolio. The Supervisory Board believes that the level of capitals maintained by the Bank is sufficient to ensure its financial security, as well as the security of deposits entrusted to it, and to stimulate its further growth.

As of December 31, 2016, the capital adequacy ratio of the Bank was 17.2%. The excess of the Bank's capital over the regulatory requirement was constantly one of the largest surpluses among large banks operating in Poland's market. The high level of the capital adequacy ratio achieved by the Bank confirms its financial security and strong capital base.

As the GDP growth rate in Poland is likely to decline – because of the planned changes in the EU budget after Brexit and the outflow of capital from emerging markets triggered by the uncertainty generated by the economic and foreign policy of the United State – the Supervisory Board will still closely cooperate with the Management Board to monitor the impact of those factors on the situation of the Bank.

Taking into consideration the financial results achieved, the safe position of the Bank, the stable capital and liquidity ratios and the consistent and coherent strategy of the Bank, the Supervisory Board's assessment of the activities of the Bank in 2016 is positive. Simultaneously, the Supervisory Board is convinced that both already started and planned initiatives will contribute to an increase in shareholder value by allowing the Bank to achieve optimal financial results and market position despite a challenging market environment.

3. ASSESSMENT OF RATIONALITY OF THE BANK'S POLICY IN THE AREA OF CORPORATE SOCIAL RESPONSIBILITY AND SPONSORING

3.1. Corporate social responsibility of the Bank

The Bank undertakes all actions following the needs of its customers, but also the community in which it operates. The Bank is socially responsible for and sensitive to the needs of both its business and social partners.

The corporate social responsibility initiatives of the Bank cover workplace and market environment, local communities and natural environment protection. The strategic objective is to become a company setting Corporate Social Responsibility (CSR) standards, both outside and inside the organization. The Bank continues investments supporting local communities, implemented for public good in such fields as economic education, promotion of entrepreneurship, local development and protection of cultural heritage. The Bank's mission in this area is fulfilled through the Leopold Kronenberg Foundation (Foundation), established in 1996.

In 2016, the Foundation ran four programs in the area of financial education and entrepreneurship, three programs in the area of cultural heritage and six employee volunteering programs. It also carried out a ninth edition of the "Poles' Attitudes Towards Saving" survey, widely acclaimed by the media and opinion leaders. It is deemed one of the most reliable surveys of that kind in Poland. The Foundation continued its initiatives to protect cultural heritage, the most important of which is the Aleksander Gieysztor Award, granted to honor individuals and institutions with outstanding achievements in the field of cultural heritage protection. The ArtSherlock application was launched as part of the program aimed at recovering works of art and revolutionized searching for artworks lost in World War II. Its key quality consists in a wider range of search. Until recently, only an expert was able to identify whether a certain object is one of the missing artworks. At the moment, any smartphone owner can do this.

One of the key areas of the Foundation's activities in 2016 was the Citi Employee Volunteering Program. It has been consistently realized since 2005 and is one of the oldest employee volunteering programs in Poland. As in previous years, the Citi Global Community Day was a top event also in 2016. Volunteers from the Bank and Citi Service Center, together with their families and friends, were involved 3,299 times, took part in 217 projects and worked nearly 18,000 hours. They helped 31,000 people. As part of the program, volunteers also organized holiday campaigns, volunteers for seniors actions and integration volunteering outings. In 2016, the Foundation joined the "Volunteering in Culture" project, which resulted in a dedicated nation-wide conference. In

2016, the Foundation offered 7 subsidies for implementation of social projects. The high standards of the Bank's CRS activities are confirmed by many awards, for example the Ethical Company Award from the "*Puls Biznesu*" daily. A record number of good practices of Citi Handlowy was mentioned in the report "Responsible Business in Poland. Good Practices" prepared by the Responsible Business Forum.

The Kronenberg Foundation responds to social needs, which are previously properly diagnosed and identified. Especially in the area of economics education, there is a visible shortage of financial knowledge, which may lead to serious consequences in the life of every Pole. A vital issue for the entire society is the goods plundered during World War II, which is why the Foundation pays a particular attention to searching for artworks lost in that time. As confirmed by multiple examples, employee volunteering is a special type of activity, which is meant not only to help others, but also to integrate. Surveys carried out by the Foundation every year show that volunteering strengthens teams of employees, affects their perception of the Bank as employer and develop their competences in various areas.

The Supervisory Board positively assesses the activities of the Kronenberg Foundation.

Full description of its activities is available in the Bank's annual report and on the website www.kronenberg.org.pl

3.2. Sponsoring

In 2016, the Bank and the Foundation supported numerous nation-wide and international conferences and seminars. One of the them was the Smart City Forum conference, an event arranged in response to global transformation in the area of building and functioning of smart cities. The Bank was a partner of the Smart City Grand Gala, where the awards for achievements in 2015 were granted. As part of the conference, a representative of the Bank gave a presentation about the financing of Smart City investments and about Smart banking solutions.

Experts from the Bank took part in debates during the seventh edition of the "Economic Patriotism Age" program, organized under the patronage of the "*Puls Biznesu*" daily. Once more, the Bank was a partner of that initiative, which significantly contributes to development of the Polish business community.

In cooperation with the American Chamber of Commerce in Poland, the Bank was involved in the organization of the European Economic Congress in Katowice and the Economic Forum in Krynica. In Krynica, Mr. Sławomir S. Sikora, President of the Bank's Management Board, took part in the "Transatlantic Business Bridge" debate. During the meeting, for more than an hour, panelists discussed such issues as transatlantic economic cooperation, Polish companies investing in the USA and expectations of the TTIP (Transatlantic Trade and Investment Partnership).

The Bank was a partner of the European Forum for New Ideas (EFNI), with an award ceremony in the 3rd edition of the Emerging Market Champions competition, organized by the Kronenberg Foundation at Citi Handlowy. The ceremony was accompanied by a debate concerning the challenges that emerging economies are faced with nowadays.

In September 2016, the Bank was a partner of "Engineering of the Future 2016", a scientific and industrial conference dedicated to innovative technological and organizational solutions for the industry, organized by the Institute for Sustainable Technologies – National Research Institute.

In October 2016, Koziminski University in Warsaw organized the conference "Future of Poland's Economy", under the patronage of the Bank and with participation of Vice Prime Minister Mateusz Morawiecki and ex Vice Prime Ministers for economic policy. Its aim was to discuss internal and external conditions and development outlooks for Poland's economy. Experienced practitioners in the fields of economics, management, finance, banking and law took part in the discussion.

In mid-November, the Bank supported, as a partner, the Open Eyes Economy Summit. During that event, Mr. Sławomir S. Sikora, President of the Bank's Management Board, participated in the inspirational session "Value for a bank, value for its clients". On the second day of the conference,

Ms. Katarzyna Majewska, Member of the Bank's Management Board and Head of Operations and Technology Sub-sector, joined a cybersecurity session.

In 2016, the Bank promoted golf in Poland, as a partner of the Polish Golf Union.

The Supervisory Board positively assesses the involvement of the Bank in the area of corporate social responsibility and sponsorship of important economic events.

4. THE ASSESSMENT OF FUNCTIONING OF REMUNERATION POLICY AT BANK HANDLOWY W WARSZAWIE S.A.

- 4.1. The obligation of the Supervisory Board to assess the functioning of the remuneration policy at Bank Handlowy w Warszawie S.A. results from Section 28.3 of the Principles of Corporate Governance for Supervised Institutions issued by the Polish Financial Supervision Authority (KNF) on July 22, 2014 and effective from January 1, 2015.

The remuneration policy for holders of key functions at Bank Handlowy w Warszawie S.A. ("Bank") ("Remuneration Policy") was approved by the resolution of the Supervisory Board of the Bank of December 3, 2015.

- 4.2. The Remuneration Policy is assessed as follows:

The Remuneration Policy covers the correct group of persons, defined as Key Persons.

The Remuneration Policy appropriately defines the rules of remuneration applicable to Key Persons, including their form, structure and method of their determination. The rules of remuneration applicable to Members of the Supervisory Board are regulated by resolutions of the General Meeting of Shareholders.

The method of implementation of the Remuneration Policy at the Bank ensures that the structure of remuneration of Key Persons supports the long-term stability of the Bank and is in conformity with the strategy, goals and objectives, values and long-term interests of the Bank, especially such as sustainable growth, and enables the elimination of a potential adverse impact of remuneration systems on risk management.

The Bank has correctly implemented all the rules applicable to fixed remuneration included in the Remuneration Policy. In particular, the Bank diversifies amounts paid to Key Persons as their fixed remuneration taking into account their professional experience and functions in the organizational structure of the Bank.

The Bank uses the Remuneration Policy, in addition to other measures, to promote reasonable and effective risk management and to prevent risk taking going beyond an acceptable level. Consequently, the remuneration system based on financial and non-financial performance which is used by the Bank does not reward excessive risk taking in decision making. In particular, the remuneration of each of the Members of the Management Board is determined to promote the prudent management of the Bank and on the basis of financial and non-financial performance without rewarding inappropriate decisions taken by employees.

The detailed rules applicable to variable remuneration granted to Key Persons are regulated by the Policy of Variable Remuneration Components for Managers of Bank Handlowy w Warszawie S.A. ("Variable Remuneration Policy"). Those rules were properly applied to grant Key Persons variable remuneration in January 2017 (variable remuneration for their work in 2016), i.e.:

- the Remuneration Committee of the Bank's Supervisory Board recommends and justifies the amounts and conditions of variable remuneration for persons covered by the Variable Remuneration Policy. It also expresses an opinion on the amendments to the Variable Remuneration Policy, including the amounts of components of remuneration, following the rules of prudent and stable management of risk, capital and liquidity and with special care of long-term interests of the Bank and its shareholders, investors and stakeholders, In 2016, the Remuneration Committee of the Supervisory Board held five meetings;
- the level of variable remuneration for work in 2016 was determined on the basis of financial and non-financial criteria, taking into account the costs of risk, costs of capital and liquidity risk of the Bank in the long-term run. The variable remuneration determined as above was granted on January 16, 2017. It was divided into a current and deferred part. In turn, the deferred remuneration was split into a short-term part, which may be vested in employees after 6 months, and a long-term part, which is divided into three installments payable in 2018, 2019 and 2020;

- after having examined the situation the Supervisory Board and the Management Board found no reason to reduce the remuneration granted to any Key Person under the Variable Remuneration Policy – either within the framework of the ex-post risk adjustment connected with the results of the Bank or in connection with individual performance. The above-mentioned vesting of rights was related to the respective portions of deferred variable remuneration for work in 2013, 2014 and 2015.

In 2016, the Bank correctly analyzed the roles and responsibilities of their employees in the context of the key risks managed by the Bank and the quantitative and qualitative criteria described in Commission Delegated Regulation (EU) No 604/2014 of 4 March 2014 supplementing Directive 2013/36/EU of the European Parliament and of the Council with regard to regulatory technical standards with respect to qualitative and appropriate quantitative criteria to identify categories of staff whose professional activities have a material impact on an institution's risk profile and, on that basis, determined the list, approved by the Supervisory Board, of persons holding managerial positions who have a material impact on the risk profile of the Bank and, thus, should be subject to the Variable Remuneration Policy. As of November 22, 2016, the list of staff covered by the Variable Remuneration Policy in 2016 included 82 persons.

The Supervisory Board positively assesses functioning of the Remuneration Policy applied at the Bank.

- 1.4 The cumulative effects of more minor incidents, which individually do not impinge on a Supervisory Board Member's reputation but may in sum have a material impact, should be considered.
- 1.5 Particular account should be taken of the following factors, which may cast doubt on a Supervisory Board Member's good repute:
 - a) conviction or prosecution of a criminal offence, in particular:
